

SI Event Center Stuttgart
Conference Room "Hamburg"
Tuesday, 9 March 2010

Time	CRASH DAYS Technology Forum
from 9:30	Registration of participants
10:00 – 10:30 Transducers	New inertial systems for the acquisition and analysis of dummy movement Dr. Kai Schönebeck, Quensys Electronic Systems
COFFEE BRAK	
10:45 – 11:45 High-Speed Cameras, 3D Image Processing	High-speed video recording with high quality and high resolution: technologies and application Peter Köller, PCO
	Gig3D – A billion 3D points in one second Dr. Bernd-Michael Wolf, SOLVing3D
COFFEE BRAK	
12:00 – 13:00 New Aspects in Active and Passive Vehicle Safety	New development methods for passive vehicle safety with side impact Dr. Jürgen Gugler, DSD – Dr. Steffan Datentechnik
	Driver assistance in collision anticipation based on high-speed video analysis Dr. Dorin Aiteanu, Signum Bildtechnik
LUNCH TIME	
14:00 – 15:30 Application Workshop	Higher efficiency by integrated and intelligent solutions for sensor calibration, dummy certification and crash testing KT Automotive

Participation is free of any costs. However, pre-registration is required!
 For convenient on-line registration see: www.crash-days.com
